KidoKare®
YOUR KIDS, WE CARE!

KidoKare® - Your Kids, We Care!

KidoKare® started developing children care products as the growing concern of our beloved kids are facing more and more health issues through the spread of the known or unknown bacteria and disease. As the public awareness of the many currently known diseases and virus such as Hand, Foot and Mouth Disease and Enterovirus are affected across the young kids. Therefore, maintaining a strict personal and environmental hygiene is an emergency needed and this is how the concept of KidoKare® product comes in.

Built-in Microban® Antimicrobial Technology

All KidoKare® products are embedded with Microban® antimicrobial additives. Microban® is the global leader in built-in antimicrobial product protection, with the promising of the Microban® antimicrobial technology, Kidokare's products ensure the safest and bacteria free for the parents to their child.

Design with joy and care

KidoKare's uniqueness design not only provides comfort for the use by the parents, but also gives unlimited imagination of dreaming products. Our philosophy of creation is to keep thinking what KidoKare® can do to make parenting life happier and more enjoyable.

Company Profile

KidoKare® is a Hong Kong based manufacturer for quality products that shipped to International brands company in the past 10 years. With the highly automated precision machinery, the satisfaction of the quality products is ensured.

[BRAND VISION](#)[ABOUT MICROBAN](#)[PRODUCTS](#)[NEWS](#)[CONTACT US](#)

Microban® Antimicrobial technology is infused into the finish of KidoKare® products during manufacturing process and works continuously to inhibit the growth of bacteria that can cause stains, odors and product deterioration. The 24/7 protection of Microban® technology keeps the surface of Kidokare® products cleaner between cleanings.

And since Microban® technology is infused into Kidokare® products during manufacturing process, it would not wash off or wear away for an extra level of hygiene protection that will last for the life time of your Kidokare® products.

Even after normal cleaning, bacteria can quickly multiply on an unprotected surface. In fact, on an unprotected surface, bacteria can double in number every 20 minutes.

之前串錯了“ cab” ,
現改回can, 麻煩請注意,
新word 檔已upload dropbox.

* Representative of antimicrobial effect. Antimicrobial action limited to product surface. This information provided for comparative purposes only.
